Appomattox Holds Lead In District

The Seminole District standings remained unchanged after Friday night's basketball game as all of the five district clubs which played participated in nonconference contests.

However, the Seminole clubs posted only a 2-3 record against their nonconference foes with William Campbell and Rustburg posting the wins and Nelson, Altavista and Staunton River being charged with losses.

Appomattox continues to lead the district with a perfect 4-0 conference mark and a 5-0 record overall while the hard-charging Rustburg Red Devils are looking more and more like a solid second place club.

Shopping Tour Includes 45 Children

The annual Christmas shopping tour, sponsored by the Appomattox County Jaycees, was held on Thursday, December 21, 1972. Forty-five children throughout the county participated in this annual event.

Beginning at 3:00 p.m., the children were entertained at the Appomattox Primary School. They were served supper at 6:00 p.m. and then each child was given an envelope with $12.00 inside to be spent on giftsfor their families and for themselves.

At 7:00 p.m., Jaycees and their wives took the children to local stores and helped with their selections of gifts.

After the shopping was completed, the children returned to the school where they were greeted by Santa Claus who had a bag of fruit and candy for each child.

The evening ended with the Jaycees and their wives carrying the children to their homes, each loaded with gaily wrapped Christmas gifts.

Industry To Locate At Appomattox Ranks Tops In Employment In State

According to a December 22, 1972, news release from the Governor's Office, Division of Industrial Development, in the official report on Manufacturing Developments in Virginia for the year 1972, Appomattox tops the list of towns and cities, employmentwise, with the anticipated employment of 700 persons at the new Thomasville Furniture Industries which will locate in Appomattox.

The report released is as follows:

Employment anticipated from the announcements of new manufacturing plants and expansions in Virginia during 1972 registered a 7% gain over employment expected from announcements in 1971. The number of facilities involved increased 10% rising from the 140 announcements in 1971 to 155 in 1972.

A total of 15,150 manufacturing jobs are expected from 1972 announcements. These employment opportunities are the result of 75 new plants that have located or plan to locate in Virginia which will employ about 7,600 and 80 expansions of existing facilities which will add approximately 7,550 jobs. In 1971, there were 75 new plants with anticipated employment of 7,000 and 65 expansions which added about 5,020 jobs for a total of 14,120.

As can be seen from the above figures, expansions were up substantially from last year. Twenty seven existing plants have added or expect to add 100 or more employees. Those expansions with plans to hire 300 or more new employees include: International Business Machines, Manassas, 650; Liebherr - America, Newport News, 650; Atlantic Furniture Mfg. Co., Inc., Norfolk, 300; Columbia Yacht Company, Chesapeake, 300; General Electric Company, Portsmouth, 300; Goodyear Tire and Rubber Company, Danville, 600; and Quality Mills, Inc., Hillsville, 300.

Of the 75 new plants, thirty-three will employ 100 or more persons. Those employing greater than 300 are: Thomasville Furniture Industries, Appomattox, 700; American Furniture Company, Chilhowie, 600; General Electric Company, Winchester, 400; and Standard Garments, Inc., Chatham, 350.

During 1972, there were 40 announcements which indicated an investment of $1 million or more. Of these, 27 were for expansions and 13 for new facilities. For the year 1971 there were 28 announcements with a $1 million or greater investment.

New plants with $5 million or more capital investment include: General Electric Company, Winchester, $20 million; Foster Grant Company, Inc., Chesapeake, $15 million; Doubleday and Company, Orange, $8.5 million; Addressograph-Multigraph Corporation, Wytheville, $5 million; and American Furniture Company of Martinsville, Chilhowie, $5 million.

Plant expansions of greater than $5 million are: Goodyear Tire and rubber Company, Danville, $11 million; Liebherr-America, Newport News, $9 million; Meredith/Burda, Inc., Lynchburg, $7 million; and Dan River, Inc., Danville, $6.5 million.

Virginia's already diversified manufacturing base continued to broaden with the addition of many new products to be manufactured in the State for the first time. Eighteen of the twenty major industrial categories showed activity in 1972. Leading the field was the furniture industry with anticipated employment gains of over 2,850. Other large employment increases were announced in apparel (2,700), electrical machinery (1,925), rubber and plastic products (1,050), and nonelectrical machinery (1,075).

Geographically, announcements were well-dispersed. There were, however, concentrations of manufacturing activity along Interstate 81 between Bristol and Roanoke, along Virginia's southern border and in Tidewater.

We have not included in the above figures the expansion plans of Newport News Shipbuilding because of its size and importance. It is treated separately. Newport News Shipbuilding has already begun
